SOLVERA HEALTH'S BONE CLINIC

Your Program for Healthy Bones

START HERE AND BEGIN YOUR JOURNEY. SOLVERA HEALTH'S BONE CLINIC OFFERS A COMPREHENSIVE PROGRAM FOCUSED ON:

Designed for individuals aged 50+ who may be experiencing any of the following concerns:

- > Recent fractures
- > Diagnosed with osteoporosis
- > In need of a joint replacement

Goals of the Bone Clinic:

- > Prevent future fractures
- > Support long-term bone health through personalized care

Services include:

- > Expert care team
- > Advanced screenings
- > Nutritional guidance
- > Targeted therapies
- > Medication management

Solvera Health is committed to helping you control your bone health and improve your overall well-being.

1

GET YOUR DEXA SCAN: Start with a DEXA scan to measure your current bone density and assess your risk for fractures.

2

REBUILD BONE STRENGTH: In the first year, our program focuses on stimulating new bone growth, significantly lowering your risk for fractures.

3

MAINTAIN AND PROTECT: After rebuilding, we help you preserve your gains and prevent further bone loss with treatments every 6 months

4

COORDINATE ONGOING CARE: Continue follow-up care with your primary care provider or establish care with a Solvera Health provider to ensure consistent support and monitoring.

5

EMBRACE A BETTER QUALITY OF LIFE: Stronger bones mean greater confidence, mobility, and independence in your everyday life.
