FIREFIGHTERS

THE PHYSICAL RIGOR IN FIREFIGHTING WORK — coupled with daily risk of serious or fatal injury — support the need for regular firefighter physical exams. Through **Solvera | Work** offerings, we can support the exam and primary care needs of firefighters.

2 WAYS WE SUPPORT OUR FIREFIGHTERS

1 Medical Exam and Fitness for Duty Requirements

Solvera Health physicians can evaluate firefighters to determine if they are fit for duty so that fire departments can train them to respond to emergencies, scale burning structures to rescue victims, treat injured people, control and clean up hazardous oil and chemical accidents, and other essential job functions.

- > Basic and comprehensive physical exams
- > Hazardous waste operations
- > SCBA and respiratory protection
- > Occupational noise exposure
- > Bloodwork, cancer screenings, urinalysis, drug screening
- > Performance evaluations or physical fitness tests
- > Vision, hearing and sleep testing

WE CAN PROVIDE À LA CARTE SERVICES OR DEVELOP COMPREHENSIVE OFFERINGS TO SUPPORT THESE NEEDS.

2 Primary Care Needs for Firefighters and their Families

Beyond the work requirements, our comprehensive, on-site clinic approach is ideally suited as a convenient primary care option for firefighters and their families.

- > **Primary care and family physicians** — with same day appointments
- > **Extensive on-site services** — including lab, x-ray, ultrasound, bone density and more
- > **On-site Pharmacy** — to provide medications and consultation during your visit
- > **Physical Therapy** — relieving pain, improving the quality of life and getting you back on track quickly
- > **Hearing services** — including hearing evaluations and hearing aids
- > **Transparent pricing** — focused on affordability
- > **Care Management and Preventative Health** — working to keep you out of the hospital
- > **Insurance consulting** — accepting most insurances and offering customized options
- > **Transportation** — helping you get to and from appointments
